

CPA 90X116 CASED BY ENTLE

— EXCEPTED BY: PETITION
RULEMAKING ADMIN. PROCOS

WITH PORTIONS REMOVED.

SUMMARY OF MEETING: The representatives of Concerned Families each described the incidents in which they lost their child or grandchild. They indicated that ATVs are heavy, unwieldy and extremely dangerous for children to be on. They urged the Commission to take action to keep children off of the

adult-size ATVs. Commissioner Moore expressed support for finding ways of keeping children under 16 off of the adult-sized vehicles. He stated that, whatever else might be done, that a major Information and Education campaign was needed to educate parents and others about the dangers of these vehicles to children. He felt many parents were unaware of the death and injury numbers and that they needed to know these before they allowed their children on these vehicles. The Concerned Families representatives agreed that such a campaign would be a good thing. The Commissioner expressed admiration for their courage in speaking out on such a painful subject and hoped they would be successful with their website www.atvsafetynet.org and with their congressional visits. He thanked them for taking the time to come and speak with him.
